

Questions to ask my doctor about statin medications

Please print this page and discuss the following with your doctor at your next appointment.

Questions	Doctor response
Is a statin medication right for me? How does it work?	
If it isn't right for me, why?	
<p>If starting a new medication:</p> <ul style="list-style-type: none"> ▪ Is it safe to take with my other medications? Are there any medications I should stop when I start this one? ▪ Are there any side effects I should be aware of? What should I do if I have any of these side effects? ▪ Is it the most cost-effective choice? For example, does it have the least expensive copay? Is a generic form available? ▪ What strength are you recommending? How many times a day do I need to take the medicine? ▪ What should I do if I miss a dose? ▪ Do I need to avoid alcohol or any particular foods while taking this medicine? 	
<p>Topics to Discuss - What else can I do to improve my cholesterol levels?</p> <ul style="list-style-type: none"> ▪ Get it checked as directed by your physician. ▪ Control and monitor your blood pressure. ▪ Eat a diet rich in fruits and vegetables, and low in fat and sodium. ▪ Exercise regularly. Be sure to talk with your doctor before starting an exercise program. ▪ Lose weight if you're overweight — even a few pounds can help reduce health risks. ▪ Don't smoke. If you smoke, don't put off quitting any longer.
